

TARIFF BILL READY.

The conference committee in charge of the tariff bill has about completed its work and the bill, as shaped by this committee, will go to the two branches of Congress for adoption or rejection this week. Cotton ties and bagging, which were placed on the free list by the Senate, have been placed on the dutiable list by this committee, and as the rule is that the report will have to be voted on as an entirety, i. e., upon the adoption or rejection of the report, there is some doubt about the Senate being able to get an opportunity to oppose the placing of cotton ties and bagging on the dutiable list. If by any means they can get the question up, there is grave doubt about its being acted on favorable to the South.

LATER.—The report passed the house by a large vote Monday night. It went to the Senate Tuesday. Senator Tillman has announced his intention of voting for the report if his vote is needed to carry it.

The farmers are very busy in these parts trying to get through "laying by" their crops. Crops are small for the time of year, but if we are favored with good seasons from now on, there will be good crops made.

Recently I thought I'd go up on the River and see the crops. The first I came to was "Optimus" cotton. I wondered how it was that he had such fine cotton with not a sign of grass. When I came to his corn crop the mystery was solved. He was using his mower and rake instead of plow and hoe—gone into the hay business.

The next farm I came to was "Old Hickory's." To my surprise it was well filled and in excellent condition, and from his conversation I could tell that he was better pleased with his corn crop than Optimus was with his hay crop.

I then came to Mr. W. R. Tillman's farm. He had just finished laying it by, and said that he had the best crop he ever had.

Next, I came to the farm of Mr. J. B. McGuirt which was in a very promising condition.

The Lazy Man's Club will meet at Van Wyck on the fourth Saturday in July, at 3 o'clock p. m. Optimus will occupy the chair and call the meeting to order. A delegate is to be elected to the annual meeting which will convene at J. B. McGuirt's fishing on the first Saturday in August.

Guess what young man came up from Lancaster to see his best girl and she carried him back to town?

Dry Creek Dots.

The farmers are about done work in this section.

Crops are good, both corn and cotton. The stand of cotton is bad, hence we can not make a full crop. The melon crop will be fine this year, though a little late.

Mr. Eli Thompson says he will make 500 bushels corn on a two-horse farm this year. He is a believer in raising his own supplies—his hog and hominy—and planting cotton as a surplus crop. There is some talk of a church being organized at Belltown.

Mr. W. T. Vandlandingham has the finest field of corn this correspondent has seen this year, and Mr. Jas. A. Cauthen has the

How to Be Admitted to the South Carolina College.

There will be held at each County seat in the State on Aug. 13th, under the direction of County Superintendents of Education, an entrance examination for students, male and female, who may wish to enter the South Carolina College.

This is done for the convenience of the students, to save time and expense, and above all to give opportunity to any applicants who may fail to pass any part of the examination to review such study during the month of September, and to try the examination to review such study during the month of September, and to try the examination at the College, September 28-29, when the usual entrance examinations are held.

This plan promises to be a great convenience to the patrons of the College, and a great aid to backward students, enabling them to take advantage really of two entrance examinations with an interval to study up on any branch in which they may be deficient.

The applicants will be informed by the 26th of August how they have passed, and what they have passed and what they need to study further, and will be advised on all matters relative to their expected entrance into the College.

At the same time and places competitive examinations will be held for Normal Scholarships, two of which are awarded in each county of each State. These carry with them the remission of fees to the amount of \$50.

Carbuncles!

It's the same story. The experience of all sufferers with blood diseases is identical. First the doctors are consulted, and their prescription of potash and mercury is taken faithfully, but without result. Months pass, and the mercurial dose is continued, until finally, his condition being no better, or often worse, the patient becomes discouraged and decides to change treatment.

Patent medicines are then taken, but until the right one is found the results are the same. S. S. S. is the only blood remedy on the market which is guaranteed purely vegetable. It is the only one that contains no mercury, no potash, or other mineral, and therefore is the only one that promptly gets at the bottom of all blood diseases and cures permanently.

MR. JOSEPH C. MYGATT.

All who are afflicted with Scrofula, Eczema, Tetter, Cancer, Carbuncles, Rheumatism, Contagious Blood Poison, Catarrh, or any other form of blood troubles, will find in S. S. S. a prompt and permanent cure; it matters not how deep seated the disease, or what other treatment has failed. Carbuncles are the result of an impoverished condition of the blood, causing a depressed vitality and such a low state of health that it is difficult for the system to withstand even the mildest illness.

Mr. Joseph C. Mygatt, of No. 400 Hancock Ave., Athens, Ga., says: "I contracted blood poison from dye, which developed such alarming symptoms, that my life was almost despaired of. At one time there were fourteen carbuncles on my body, and my suffering was such that for months I was unable to do any work. The best physician in our city treated me constantly, but his efforts were of no avail, my condition growing worse all the while. "S. S. S. was recommended, and after I had taken the first bottle, an improvement was noticed. I grew better every day, and after taking six bottles I was entirely cured. The carbuncles all disappeared, leaving my skin perfectly clear, and I have never had one since."

There is not a disease of the blood, it matters not how severe, which S. S. S. will not cure. It is guaranteed

Purely Vegetable

and is a real blood remedy for real blood troubles, promptly reaching the seat of the disease, and forcing it out permanently.
